

Client: Nottingham Trent University

Architectural Advisor – Clifton campus

Client
NTU

Construction Cost
£12 million

Project Advisory Team
JMF Chartered Architects

Procurement Route
Design+Build

JMF were appointed by NTU to provide Architectural Advisory services on their new Pavilion and Teaching Block projects, and associated landscaping.

The design (by others) was procured under a Design + Building Form of Contract. The original Architect was novated to the Main Contractor, and the client wanted to retain the essence of the design concept.

NTU chose JMF to act as their design guardian, while at the same time assessing and assisting with the detailed design packages, ensuring the elemental interfaces and detail were not compromised.

NTU and the Main Contractor have welcomed JMF's involvement, acting as the conduit between client aspiration and contractor practicality and profit.

For more information please contact James Firth on 07790 019248.
