

Client: Quinn

Shopping Centre - Ufa

Client
Quinn

Construction Cost
£250million

Key dates
Up to RIBA Stage C+ completed

Project Design Team
JMF Chartered Architects in conjunction
with Benoy

Procurement Route
Traditional

A proposed shopping centre with integral leisure complex in Ufa, Russia. The project reached RIBA Work Stage C prior to being put on hold due to the clients funding capabilities.

JMF and Benoy (and S+P on the leisure aspect) worked with the local technical Architect in Russia. The proposed design was based on an existing foundation grid, installed for a previous scheme.

The proposal included four floors of retail around a central atrium based on the requisite retail proportions and dimensions.
